Maharishi Dayanand University   **08/2019 – 07/2023**
Bachelor of Technology in Computer Science and Engineering

S.D.R. Pub. Sr. Sec. School   **2017 – 2019**
Higher Secondary Education [CBSE]

SKILLS

- Front-end Development
- Back-end Development
- Database Management
- Version Control
- Deployment Basics
- Web Development
- OOPS Concept
- Data Structures and Algorithms

Experience

- Frontend Engineer — Rian Infotech   **Oct(2024) - Present**

PROJECTS

Personal Portfolio ⇗ | Technology Stack Used : Tailwind, React.js, EmailJS

- **Responsive Design:** The website is fully responsive, ensuring a seamless user experience across different devices like smartphones, tablets, and desktops. .
- **Project Showcase:** Features an interactive section where projects are displayed with descriptions, tech stacks, and live demo links, making it easy for visitors to explore my work. .
- **Clean UI with React:** Leveraging React for component-based architecture, the site is optimized for performance with a clean, modern interface for smooth navigation and fast loading times. .

E-commerce App (ShopNow) ⇗ | Technology Stack Used: Next.js, Tailwind CSS, ShadCN, Redux, Supabase

- **Fully Functional E-commerce Platform:** Developed a comprehensive e-commerce application with features like product listing, shopping cart, user authentication, and secure payment integration.
- **Modern Tech Stack:** Leveraged Next.js for server-side rendering, Supabase for real-time database functionalities, Redux for efficient state management, and ShadCN for modern UI components.
- **Responsive Design:** Ensured seamless shopping experiences across devices with responsive layouts, optimized for both desktop and mobile users.

Spotify Clone ⇗ | Technology Stack Used : HTML , CSS , JavaScript

- **Music Streaming Functionality:** The application allows users to stream music seamlessly, providing core features such as play, pause, and skip options, enabling an engaging listening experience.
- **Intuitive User Interface:** Designed with a responsive layout, the user interface is intuitive and easy to navigate, ensuring that users can easily access and control their music on various devices, from mobile to desktop.
- **Track and Volume Management:** Includes features for volume control and track management, allowing users to adjust the audio levels and switch between songs effortlessly, enhancing overall user satisfaction.

TECHNICAL SKILLS

Programming languages: JavaScript.
Front-End: HTML5, CSS3, React.js, Next.js, Redux, Bootstrap 5 , Shadcn, Tailwind CSS.
Back-End: Node.js, Express.js.
Databases: MongoDB, Supabase , Mongoose.
Tools/Technologies: Visual Studio Code, Sanity io, Postman.
Version control: Git, GitHub.
